Module 2

Question 1

Source PDF page: 1

The following text is adapted from Jhumpa Lahiri's 2003 novel *The Namesake*. Gogol is an elementary school student in Massachusetts. In art class, his favorite hour of the week, he carves his name with paper clips into the bottoms of clay cups and bowls. He pastes uncooked pasta to cardboard, and leaves his signature in fat brush strokes below paintings. As used in the text, what does the word "leaves" most nearly mean?

- A. Lifts
- B. Allows
- C. Switches
- D. Writes

Question 2

Source PDF page: 1

Several scholars of children's literature recently to discuss the work of Jerry Pinkney, illustrator of such lauded books as *The Talking Eggs: A Folktale from the American South*. Once together, they talked about his style, influences, and themes. Which choice completes the text with the most logical and precise word or phrase?

- A. cited
 - B. stipulated
 - C. convened
 - D. ascribed
- \$. | 892) SAT @ BRS SAAR pa

Question 3

Source PDF page: 2

The following text is from Thomas Hardy's 1874 novel *Far from the Madding Crowd*. Bathsheba and Liddy are traveling down a road when Liddy points out a neighbor whom Bathsheba hasn't met yet. Liddy looked. "That! That's Farmer Boldwood-of course 'tis - the man you couldn't see the other day when he called." "Oh, Farmer Boldwood" murmured Bathsheba, and looked at him as he outstripped them. The farmer had never turned his head once, but with eyes fixed on the most advanced point along the road, passed as unconsciously and abstractly as if Bathsheba and her charms were thin air. As used in the text, what does the phrase "most advanced" most nearly mean?

- A. Most developed
- B. Brightest
- C. Most novel
- D. Farthest

Question 4

Source PDF page: 2

Everything Flows, some critics commend it despite its mangling by Soviet censors: Marcel Theroux in The Guardian called it "lucid and readable." Several draft versions have been , and translators consulted those drafts when working on what they hoped would be a definite English edition. Which choice completes the text with the most logical and precise word or phrase?

- A. assigned
- B. disproved
- C. preserved
- D. hypothesized.

Question 5

Source PDF page: 3

How does the friction between different surfaces and a rolling object affect the speed of the object? One way to explore this question is to use the scientific method. This method involves forming a hypothesis, conducting an experiment, collecting data, and drawing a conclusion. Using the scientific method helps us understand how things work and helps us answer questions, such as the one about friction and a rolling object. Which choice best describes the main purpose of the text?

- A. To criticize an experiment scientists conducted about friction and a rolling object
- B. To explain one way to answer the question about friction and a rolling object
- C. To summarize two sides of a scientific debate
- D. To describe the career of a famous scientist

Question 6

Source PDF page: 4

Text 1 Economist Thomas Piketty's book Capital in the Twenty-First Century has a more rigorous structure than its sequel, Capital and Ideology. While the first book's chapters all contribute to bolstering a clear, coherent argument about income of France do not just make the book tedious but also muddy its reasoning. Text 2 Capital and Ideology has different aims than Piketty's earlier books. It should be judged not just in the context of Piketty's previous work but placed next to books like William T. Vollmann's Rising Up and Rising Down, in which the stated theme of justifications for violent acts is mainly an excuse for a polymath to map his own mind. do not explicitly support the central thesis, they link to each other in intriguing ways. None of them should be considered extraneous. Based on the texts, which choice best describes a difference in how the authors of Text 1 and Text 2 view Capital and Ideology?

- A. The author of Text 1 finds the claim that Capital and Ideology resembles the work of Robert Burton to be dubious, while the author of Text 2 believes there is sufficient evidence to substantiate the claim.
- B. The author of Text 1 thinks that Capital and Ideology does not entirely succeed in its attempt to make a single coherent argument, while the author of Text 2 contends that making such an argument is not the book's ambition.
- C. The author of Text 1 thinks that the structure of Capital and Ideology makes it a less well-written book than Capital in the Twenty-First Century, while the author of Text 2 thinks that the structure of Capital and Ideology is why it is superior to Capital in the Twenty-First Century.
- D. The author of Text 1 thinks that Piketty's expertise as an economist does not qualify him to discuss the various constitutions of France in Capital and Ideology, while the author of Text 2 holds that academics such as Piketty should feel comfortable discussing subjects outside their fields of study.

Question 7

Source PDF page: 5

Animals use many objects as tools to achieve goals more easily. Such goals include grooming, finding food, and protecting themselves. For a long time, people thought tool use was unique to primates. Elephants and other animals, though, have busted the myth that tool use requires hands. Inventively, elephants use branches to scratch themselves. Woodpecker finches also get creative. They use cactus spines to pry insects from hiding places. Which choice best states the main idea of the text?

- A. Unlike primates, elephants are exceptionally skillful at using different tools.
- B. Contrary to long-held beliefs, primates aren't the only animals to use tools.
- C. There are many myths about tools use that researchers are starting to challenge.
- D. Animals find it difficult to use objects as tools.

Question 8

River Lengths Length(km)

- A.
- B.
- C.
- D.

Question 9

Source PDF page: 6

Number of City Residents Who Often Biked to Work in 2016 Seattle, Washington 14,801 Boulder, Colorado 5,314 In the table, the city with the lowest number of residents who often biked to work in 2016 is Which choice most effectively uses data from the table to complete the statement?

- A. Madison, Wisconsin.
- B. Seattle, Washington
- C. Phoenix, Arizona.
- D. Boulder, Colorado.

Question 10

Source PDF page: 6

It may seem that works of art are best experienced in person. However, in an online collection from the Museo de Arte de Lima in Lima, Peru, people can zoom in on a high-quality image of the drawing Drawing B... by Gilda Mantilla. A student argues that viewers usually can't examine works of art in a museum as carefully as they can examine works in online collections. Which statement, if true, would most directly support the underlined argument?

- A. Most museums have signs that provide basic information about the works of art on display.
- B. Most museums don't allow visitors to get very close to the works of art on display.
- C. Many museums have started adding images of works from their collections to their websites.
- D. Museums don't always put works by different artists together in one room.

Question 11

Source PDF page: 7

In a recent study, Antonia Olivia Dolan and colleagues investigated the relationship between people's music preferences and their preferred listening volume. Participants listened to recordings - Led Zeppelin's "Whole Lotta Love," Ludwig van Beethoven's Symphony No.5 in C Minor, and others - at their preferred volume and indicated their most and least favorite among the recordings. The researchers found that participants listened to recordings they liked most at a higher volume than recordings they liked least. And given that the frequencies in all the recordings were within the audible range of these participants (all of whom had clinically typical hearing), it is therefore likely that for a given participant, the Which choice most logically completes the text?

- A. relationship between the preferred volume of a recording and the participant's attitude toward that recording cannot be attributed to its genre.
- B. fact that the preferred volume offered by recording cannot be attributed to the participant wanting to hear the favorite recording at a higher volume than the least favorite recording.
- C. difference between the preferred volumes of the favorite and least favorite recordings cannot be attributed to one recording being inherently harder to hear than the other.
- D. identification of one recording as the favorite and another recording as the least favorite cannot be attributed to the participant having prior familiarity with either recording

Question 12

Source PDF page: 8

Research such as the 2010 study of arthropods by Alvin Aaden Yim-Hol Chan and colleagues has shown that noise from human activity, like traffic on a busy highway, has various significant effects on animals, and many governments require studies of the potential noise effects on wildlife before approving highway construction projects. For one of these projects, (Unlock more SAT resources by adding our WeChat assistant at 13311268274.) a group of researchers suggested that, although there are both arthropods and birds in the area, taking actions to reduce the effects of noise on the arthropods will probably protect both types of animals because noise tends to affect arthropods more strongly than birds. Another group of researchers indicated effects won't reduce the potential harm to the birds in the area because_ Which choice most logically completes the text?

- A. the species of birds in the area experience different negative effects from noise than the species or arthropods in the area do.
- B. the actions to reduce effects on the arthropods are significantly more robust than is needed to lessen the effects on the birds in the area.
- C. the effects of noise on birds have been more thoroughly studied than the effects on arthropods have.
- D. the types of actions that are usually taken to lessen the effects of noise on birds can sometimes harm arthropods.

Question 13

Source PDF page: 9

Few stories in art history rival the gilded drama of James McNeill Whistler's Peacock Room. This sumptuous dining space became the setting of a spectacular falling-out between Whistler, who transformed the somber room into a golden aviary, and shipping magnate Frederick Leyland, who commissioned the work but refused to pay for what he as a tasteless, gaudy design. Which choice completes the text so that it conforms to the conventions of Standard English?

- A. having viewed
- B. viewed
- C. to view
- D. viewing

Question 14

Source PDF page: 9

When searching for clues about how Neolithic peoples lived, British archaeologist Lisa-Marie Shillito starts by examining trash. Buried trash deposits (known as middens) are a rich source of information for archaeologists like Shillito. Which choice completes the text so that it conforms to the conventions of Standard English?

- A. they're
- B. their
- C. its
- D. it's

Question 15

Source PDF page: 10

One example of public art (art that's readily accessible to the general public) the work Singing Ringing Tree. This sculpture is installed on public land in Burnley, England. Which choice completes the text so that it conforms to the conventions of Standard English?

- A. were
- B. being
- C. are
- D. is

Question 16

Source PDF page: 10

Many ranching terms come from Spanish. For example, the word "rodeo" (a roundup) comes from the Spanish word rodear, and "cinch" (a belt) from cincho. This is because the first Anglo, African, and Native American cattle ranchers in the southwestern US learned the trade from Spanish-speaking Mexican vaqueros, or cowboys. Which choice completes the text so that it conforms to the conventions of Standard English?

- A. will be coming
- B. will come
- C. had come
- D. comes)DEFEN |

Question 17

Source PDF page: 11

Many places in the United States share a name with a foreign city or country. When founding the town of Edinburgh, Indiana, residents decided to name after the Scottish city of Edinburgh. Which choice completes the text so that it conforms to the conventions of Standard English?

- A. it
- B. that
- C. them
- D. us

Question 18

Source PDF page: 11

Thousands of years ago, the Olmec civilization's reign over parts of eastern Mexico ended. the Olmecs' massive stone statues of human heads remain. Two of these statues, known as Monument 4 and Monument 3, weigh over 5 tons! Which choice completes the text with the most logical transition?

- A. Still,
- B. Previously.
- C. Secondly.
- D. Therefore,

Question 19

Source PDF page: 12

Unlike the sprawling, permanent mural installations of Aurora Reyes Flores and other contemporaries of the Muralismo Mexicano movement, the easily reproducible block print posters that Alberto Beltran and Jean Charlot created as part of the printmaking collective Taller de Grafica Popular (TGP) were highly portable. the prints were a boon to the TGP's goal of spreading their artwork throughout Mexico and the world beyond. Which choice completes the text with the most logical transition?

- A. For instance,
- B. Despite this,
- C. To be exact,
- D. As such,

While researching a topic, a student has taken the following notes: @ The Vistula River is in Europe. @ It is the eighth longest river in Europe. @ It ranks No.133 among the longest rivers in the world. @ it is 1,213 kilometers long. The student wants to specify how many kilometers long the Vistula River is. Which choice most effectively uses relevant information from the notes to accomplish this goal? B The Vistula River in Europe is 1,213 kilometers long. C Among the longest rivers in the world, the Vistula River ranks No. 133. Poland.) E FEN ee RBH HEU, tA 000-/

- A.
- B.
- C.
- D.

Question 21

Source PDF page: 13

While researching a topic, a student has taken the following notes: @ Chapantongo is a municipality in the state of Hidalgo, Mexico. @ It had a population of 12,967 in 2020. @ Chapulhuacan is a municipality in Hidalgo. @ It had a population of 22,903 in 2020. @ Municipalities are governmental regions responsible for providing many public services to their residents. @ Hidalgo is divided into 84 municipalities. The student wants to emphasize a similarity between Chapantongo and Chapulhuacan. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- A. Chapantongo is one of 84 governmental regions, known as municipalities, in Hidalgo, Mexico.
- B. As of 2020, Chapantongo was not as populous as Chapulhuacan.
- C. As a municipality of Hidalgo, Chapulhuacan is responsible for providing many public services.
- D. Both Chapantongo and Chapulhuacan are municipalities in Hidalgo, Mexico. } 14 Sie) E FEN

Question 22

Source PDF page: 14

While researching a topic, a student has taken the following notes: @ Sodium is a chemical element. @ When the electrons of a chemical element change energy states, certain wavelengths of light are released. (Find your SAT study helper by searching sat_6688.) @ This unique collection of wavelengths is known as the emission spectrum of the element. @ Sodium's emission spectrum includes the 589.5 nanometer (nm) wavelength of light. @ Wavelengths of 570 - 590nm make up the yellow portion of the visible spectrum. The student wants to indicate one of the wavelengths of light in sodium's emission spectrum. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- A. Sodium's emission spectrum consists of a unique collection of wavelengths.
- B. When sodium's electrons change energy states, certain wavelengths of light are released.
- C. One of the wavelengths in sodium's emission spectrum is the 589.5 nm wavelength.
- D. If a chemical element releases a wavelength of light between 570-590 nm, that wavelength would be part of the yellow portion of the visible spectrum.

Question 23

Source PDF page: 15

While researching a topic, a student has taken the following notes: @ Ukiyo-e woodblock prints were a popular artistic form in Japan from the 1600s through the 1800s. @® Ukiyo-e prints were produced by teams of artisans that included artists, wood-carvers, printers, and publishers. @ Sésaku-hanga was a popular Japanese printmaking movement that emerged in the early 1900s. ® An artist working in this style typically handled all aspects of print creation, from drawing to wood carving to printing. The student wants to contrast ukiyo-e and Sdsaku-hanga production methods. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- A. In contrast to ukiyo-e prints, S6saku-hanga prints were produced using methods such as drawing and wood carving.
- B. Ukiyo-e prints were popular in Japan from the 1600s through the 1800s, while so saku-hanga prints emerged later, in the early 1900s.
- C. One notable distinction between ukiyo-e and Sdsaku-hanga prints is sosaku-hanga's
- D. Teams of artisans produced ukiyo-e prints, whereas individual artists typically handled all aspects of Sésaku-hanga printmaking themselves.
