Question 2

Source PDF page: 2

'Some cities estimate where sidewalks are located using raad maps, which is not very accurate, Maryam Hosseini and her team trained a computer program to identity sidewalks in aerial images of Manhattan and used it on images of Brooklyn, The program's performance was (o that of the raad-map method: it mare accurately identified sidewalks, and it even distinguished between cobblestone and brick, 'Which choice completes the text with the most logical and precise word or phrase? A. superior B. supportive . similar D. changed gang saaseensesmnam 17)

RAGSRNARUAEH, hom SHH 'The following text is from Charles Chesnutt's 1905 novel The Colonel's Dream. Mr. French and Me. Kirby work together 'Mr. French, the senior partner, who sat opposite Kirby, was an older man - a safe 'guess would have placed him somewhere in the debatable ground between forty and fifty: of a good height, as could be seen even from the seated figure, the upper part of which was held erect with the unconscious ease which one associates with military training. As used in the text, what does the word "good" most nearly mean? 'A. Well-behaved B. Considerable ©. Capable D. Reliable 'Often, the Nobel Prize in Chemistry is given to a single person, such as George de Hevesy in 1943. But recognition isn't restricted to individuals, Instead, success in fields like chemistry is usually achieved through collaboration with other 'experts, as was the ease for Max Ferdinand Perutz, who was among those awarded for ir studies of the structures of globular proteins." 'Which choice completes the text with the most logical and precise word or phrase? A, solitary B. coordinated ©. considerate D. coincidental gang saaseensesmnam 17) 'The Apollo Moon landings (1969-1972) brought atmospheric sensors and soil sensors to the Moon and produced large amounts of data, much of which was stored on outdated technologies. A data-ransfer project is making the data available again, thereby the Apollo data's usefulness, as the data are used to study the geology of the Moon, 'Which choice completes the text with the most logical and precise word or phrase?

- A. persisting
- B. installing
- C. renewing,
- D. exceeding Rose BSeeRHEN ae RAGSRNARUAEH, hom SHH

Question 1

Source PDF page: 5

Text | In 2019 Belo Horizonte, Brazil, was named a City of Gastronomy by UNESCO in recognition of the city's unique food culture. The honor is well known among residents of the city as well as tourists who visit. 1's obvious that the selection of Belo Horizonte by UNESCO has brought awareness to local recipes, cooking practices, and chefs and has provided a boost tothe city's tourism industry, Text 2 'Many people in Belo Horizonte's restaurant industry hoped that food tourism would inerease after the city was chosen as a City of Gastronomy in 2019. However, as researcher Eerang Park and colleagues argue, cities must still create effective marketing strategies to benefit fully from being named a City of Gastronomy. Without 'an intentional effort to promote the city's food scene, many current and potential visitors to Belo Horizonte may not even be aware that it's home to uniquely del food. Based on the texts, what would the author of Text 2 most likely say in response to the 'underlined claim in Text 1? 'A. Many people worked together to help Belo Horizonte be recognized by UNESCO, but chefs deserve the most credit for Belo Horizomte's selection as a City of Gastronomy. B. Belo Horizonte may have benefited from being selected by UNESCO, but tour can likely be further increased by making more potential visitors aware of the city's status as a City of Gastronomy. . The naming of Belo Horizonte as a City of Gastronomy was long overdue, given the city's unique and delicious food. 1D. The benefits of being named a City of Gastronomy extend well beyond tourism. gene Rose BSeeRHEN ae RAGSRNARUAEH, hom SHH

A. "This little book is published for the express purpose of giving a helping hand to suffering and persecuted merit."

B. "To give some idea of the high esteem in which the subject of the following narrative is held, and the strong interest her misfortunes have excited, a few, from the 'great number of recommendations in her possession, are selected."

C. "Blessed are the slumbers of the innocent! They are kindlier than balm, and they reffesh and gladden the spirit of childhood, like ministrings from a better world." 1D. "Home is home, tothe lowly as well as the great: and no rank, or color, destroys its sacred character, ils power over the mind, and the affections." gang saaseensesnmam 17) RAGSRNARUAEH, hom SHH Chemists M. 11. Gamble, P. Rie processes that occur when foods, such as the Indian snacks malapua and puri Bhaji, are il fried. During frying, water in the crust evaporates, leaving voids that oil (a pure fa can Fill, As the process continues, water from the food's center moves ta the erust and J. D. Selman studied the mass and heat transfer as long as the crust remains permeable. Therefore, it is likely that, all other things 'being equal, sections of a food that lose less moisture duting the frying process 'Which choice most logically completes the text? A. will develop a thicker crust during the frying process than sections that lose more moisture, B, will have a lower fat content after frying is completed than sections that lose more moisture, . will have a crust that loses its permeability less quickly during the frying process than sections that lose more moisture, . will have a higher temperature after frying is completed than sections that lose 'more moisture gene 2 Rose BSeeRHEN ae RAGSRNARUAEH, hom SHH Ants and aphids are known to be mutualistic: ants feed on the honeydew produced by aphids, while aphids benefit from ants" protection against predators. If aphid colonies - which generally require relatively stable surfaces, such as trees or other 'woody plants, o thrive - are too small to produce significant volumes of honeydew, however, ants will prey on aphids. Researcher Tae-Sung Kwon examined ant and aphid abundance in ewo habitats in South Korea, one on the mainland and one on Jeju Island, Though the habitats differed in some important respects, both were predominantly grassland, which could help explain why Kwon observed 'Which choice most logically completes the text? A. different ant and aphid species on the mainland compared to those on the island, B. a positive correlation between aphid diversity and abundance on both the mainland and the island CC. a negative correlation between ant and aphid abundance on both the mainland and the island . diminished ant and aphid abundance on the mainland compared to that on the island. 'Museo del Autonomismo Puertorriquefi is a history museum in Ponce, Puerto Rico, It's one of more than eighty muscums in the US territory. Puerto Rico's showease everything from the tertitory's history to its architecture to its coffee. Which choice completes the text so that it conforms to the conventions of Standard English? 'A. museums B, museums: museums,

The Grootbos florilegium in South Africa contains a collection of botanical paintings, 'with each painting depicting a local plant species in exquisite detail. The florilegium includes a vignette painting by contributing artist Sibonelo Chiliza. Unlike most paintings in the florilegium, 'Which choice completes the text so that it conforms to the conventions of Standard English? B, the contextualization of a plant within an ecosystem occurs in Chiliza's vignette. A plant's ecosystem is contextualized in Chiliza's vignette 1D. Chiliza's vignette contextualizes a plant within

an ecosystem. Chiliza contextualizes a plant within an ecosystem in his vignette. gang saaseensesmnam 17) RAGSRNARUA EH, hom SHH For scientists to produce new iron nanoparticles of a specific size or strength, they must first be able to monitor reactions between oxygen and existing iron nanoparticles at a near-atomic level of detail. Fortunately, chemistry and his colleagues at Temple University recently developed a new approach that does just that, 'Which choice completes the text so that it conforms to the conventions of Standard English? A. professor Yugang Sun B. professor Yugang S . professor, Yugang Sun D. professor, Yugang Sun, 21, GUAPO B AY M2-25 2 'Motion capture is one tool digital artists employ while developing visuals for video games, igital artists use motion capture to digitally capture teal-tife 'movements and convert them to 3D game animatons. 'Which choice completes the text with the most logical transition?

- A. Thus, Bin addition, CSpecitically, D.By comparison, gang saaseensesmnam 17) Analyses of Rembrandt's seventeenth-century painting The Might Watch, citing its richly saturated colors and stark contrasts between light and shadow, often, characterize the work as an exemplar of the Baroque-era style. Many art historians, however, challenge the very notion of a distinct Baroque era, They claim that the so-called Baroque aesthetic was, just an extension of the stylings of the Renaissance era, 'Which choice completes the text with the most logical transition? Ain reality, B, first of all, . similarly, D. nevertheless, Physicist Walter Massey led numerous scientific organizations over his long career. His most prominent appointment came in 1990, when Massey was named director of the National Science Foundation, Massey had served as the first president of the National Society of Black Physicists Which choice completes the text with the most logical transition? 'A. In conclusion, B. Previously, ©. Thus, D. For example, gang saaseensesmnam 17) RAGSRNARUA EH, hom SHH 'While researching a topic, a student has taken the Following notes: + Soap forms as the result of a chemical reaction between fats and either sodium or potassium hydroxide. + One end of a soap molecule is hydrophobic (water repelling), and one end is hydrophilic (water attracting). + The hydrophobic ends of soap molecules adhere to hydrophobic surface contaminants, such as dirt and oils. + The soap molecules form circular structures (micelles) around contaminants, + The hydrophilic ends of the molecules encase the micelles in water, lifting the micelles and contaminants off surfaces 'The student wants to explain how soap removes a surface contaminant, Which choice most effectively uses relevant information from the notes to accomplish this goal? 'A, Surface contaminants like dirt and oils are hydrophobic, not hydrophilic - meaning they repel water rather than attract i B, Micelles are circular structures created when soap molecules attach themselves to dirt or oils C. To remove dirt from a surface, soap molecules form a circular structure, or micelle, around the contaminant; next, the molecules encase the micelle in water, lifting it and the dirt off the surface D. Dirt, an example of a hydrophobic surface contaminant, can be removed from a surface by soap, which forms as the result of a chemical reaction between fats and either sodium or potassium hydroxide, gene Rose BSeeRHEN ae RAGSRNARUA EH, hom SHH 'While researching a topic, a student has taken the Following notes: + The human tongue contains taste receptors for a rich, savory flavor called umami "+ Umami is triggered by the compounds in a variety of foods, including tuna and blue cheese, + Participants in a study tasted a sample of sea palm, a type of brown seaweed. + They rated its umami intensity as moderate + The participants tasted a sample of bull kelp, another type of brown seaweed, + They rated its umami intensity as high. 'The student wants to emphasize a difference between the two seaweeds. Which choice 'most effectively uses relevant information from the notes to accomplish this goal? 'A, Some types of brown seaweed, like sea palm and bull kelp, trigger umami flavor in human taste buds,
- B. Sea palm is a type of brown seaweed, but so is bull kelp.
- C. While sea palm and bull kelp contain umami flavor, umami can also be found in tuna and blue cheese.
- D. After tasting two types of brown seaweed, sea palm and bull kelp, participants in a study found bull kelp's umami flavor to be the more intense of the two.

Source PDF page: 19

In 2017, Belgium, which has strong democratic institutions, experienced an inflation rate of 2.12%, much higher than the 0.74% rate seen in Equatorial Guinea, which has relatively weak democratic institutions. Desai et al. have shown that democratic institution strength tends to restrain inflationary pressures, institutions. Such a result is, however: Raj 'Which choice completes the text with the most logical and precise word or phrase?

- A. inexplicable B. unfounded C. facetious D. anomalous
- 17) RAGSRNARUAEH, hom SHH 'Some robots such as Saika (developed in 1996) and Poppy (developed in 2013) are designed to resemble humans so that people will find it easier to interact with them, 'To that end, certain features such as bipedal locomotion can help to the effect of the more unnatural aspects of a robot's appearance, but a robot that Took too human can fall into the "uncanny valley," meaning that its appearance unintentionally unsettles those who encounter it Which choice completes the text with the most logical and precise word or phrase? A. ameliorate B. coalesce C. augment D. substantiate
- Demosthenes, a prominent fourth-century BCE Athenian orator, is said to have been of parrhesia, or speaking freely and openly to ensure productive civic deliberation. He is noted for characterizing parrhesia in several public addresses as the foundation of democracy in classical Athens rather than, more simply, as a facilitator of the political system. 'Which choice completes the text with the most logical and precise word or phrase? 'A. a proponent
- B. an steward
- C. an apprentice
- D. a harbinger
- gene Rose BSeeRHEN ae RAGSRNARUAEH, hom SHH Roy McLendon's Moonlit St. Luci, a landscape featuring the silhouette of a single palm tree against the backdrop of shimmering water and a brilliant moonlit sky, is typical of paintings by the Florida Highwaymen, loosely affiliated landscape artists mainly active in Fort Pierce, Florida, during the 1950s and '60s. Some art historians suggest that Highwaymen paintings played a role in shaping popular perceptions of the state that persist today: the natural iconography that McLendon and colleagues constantly revisited - placid inland rivers, windswept palm trees - is now seen as classically Floridian. 'Which choice best states the main purpose of the text? 'A. To describe the historical circumstances in which paintings by the Florida Highwaymen experienced a resurgence in popularity B. To explain that a particular painting by Roy McLendon has had greater influence on the broader culture of the state of Florida than is generally acknowledged C. To contrast the public's reaction during the 1950s and '60s to a particular painting, by Roy McLendon with more recent reactions to it D. To present the argument that paintings by the Florida Highwaymen likely helped to create a particular widespread impression of Florida.

Question 6

Source PDF page: 22

Chorioactis geaster, a species of mushroom that makes a distinctive hissing sound when it releases its spores, is an elusive fungus that has been observed only in Texas and Oklahoma in the US and in the Miyazaki and Nara Prefectures in Japan. Scientists aren't entirely sure why C. geaster is distributed in this way (genetic analysis reveals that the US and Japanese strains diverged 19 million years ago), but the mushroom appears to be very selective: it is typically found on the decaying stumps and roots of only a few tree species that are abundant in these areas. 'Which choice best describes the function of the underlined portion in the text as a whole? 'A. It provides an explanation for the relationship between C. geaster and its habitats B. It highlights the negative impact C. geaster has on the trees on which it's found. C. It emphasizes the uncertainty about C. geaster alluded to earlier in the text. D. It elaborates on a characterization of C. geaster presented earlier in the text

In Egypt, use of solid fuel (e.g. coal, wood) as a share of total household fuel use fell by more than 90 percent between 2000 and 2015; such shifts are often explained by 'appeal to the energy ladder, a model holding that fuel choice is mediated mainly by household income (specifically, high-technology fuels displace solid fuels as incomes rise). Alem Mekonnen and Gunnar Kihlin's study of fuel use in Ethiopia shows this 'model to be reductive, however: household fuel use was heterogeneous, flexible, and influenced by several factors, including the local availability of different fuel sources. 'Which choice best describes the main purpose of the text? 'A. To contrast patterns in household fuel use in two countries B. To account for the effect of fuel use on household income C. To critique a frequently used model of changes in household fuel prices D. To challenge a common explanation for households' fuel choices

gene Rose BSeeRHEN ae RAGSRNARUAEH, hom SHH 'The following text is adapted from Fanny Burney's 1778 novel Evelina. The text is an excerpt from a letter by Lady Howard to Evelina's guardian, Reverend Villars, in which Lady Howard discusses an upcoming trip to London planned by her daughter 'Mrs. Mirvan's family. It is very earnestly [the Mirvans'] wish to enlarge and enliven their party by the addition of your amiable ward, who would share, equally with her own daughter, the care and attention of Mrs. Mirvan. Do not start at this proposal; it is time that {Evelina} should see something of the world. When young people are too rigidly sequestered from it, their lively and romantic imaginations paint to them as a paradise of which they have been beguiled; but when they are shown it properly, and in due time, they see it such as it really is, equally shared by pain and pleasure, hope and disappointment. Based on the text, Lady Howard would most likely agree with which statement about Reverend Villars? 'A. Although the manner in which he has raised Evelina is in many ways exemplary, he has been misguided in shielding her from the influence of other young people, B. Although his desire to guard Evelina from unscrupulous people is commendable, his general mistrust has led him to be unduly wary of the Mirvans. C. He is overly protective of Evelina, who would likely benefit from a greater variety of

experiences than she has had thus far. He has imparted to Evelina his own idealist-view of the world, which results in her being unprepared to face inevitable disappointments. gene Rose BSeeRHEN ae RAGSRNARUA EH, hom SHH Many music streaming services also function as social media platforms: by giving users the option to follow friends and share curated playlists or information about their listening history, these platforms allow people to convey their music preferences and listening activities directly to their social networks. In a 2023 study, researcher Michael James Walsh interviewed frequent users of a popular music streaming platform to investigate how its social media dimensions shape their listening habits. 'Walsh found that these dimensions tended to make study participants feel more 'mindful of how their listening activities may be perceived, which in turn influenced how they managed those activities. 'Which quotation from a music streaming platform user would best illustrate Walsh's finding? A. "Listening to music through a streaming platform feels a lot more passive, since I don't need to make any deliberate choices about what music I'm going to consume, like I do when buying digital downloads or records and CDs." B. "When I create playlists or choose songs to listen to, [often pick songs that I think the friends who are following me might be interested in listening to, rather than what I 'might actually prefer listening to in that moment." C. "Because the predictions the platform makes about what new songs I might like depend on my past listening habits, at times its recommendations can feel overly repetitive and unvarying." D. "The social aspects of music streaming make it really easy to create a sense of shared listening experience with my friends, even if we aren't in the same room." gene Rose BSeeRHEN ae RAGSRNARUA EH, hom SHH

- A. student is writing a research paper on the history of irrigation in the southwestern United States, situating the development of Scarsville Lake (a man-made body of water created in San Mateo County, California, in 1890) in a larger historical context. The student claims that some modern-day irrigation methods used in southwestern states, such as California, Arizona, and New Mexico, have a lineage that long predates the completion of Scarsville Lake. 'Which quotation from a historian best supports the student's claim? 'A. "The irrigation system developed by the Hohokam people in what is now central Arizona in the 7th century CE was simple but made use of hydraulic engineering design principles that are still utilized by today's engineers."
- B. "The importance of the development of irrigation infrastructure in the American Southwest today cannot be overstated, since it is the most common means of conveying water for food production."
- C. "In the decades following the Second World War, irrigation of arid areas for agriculture increased to such a degree that it now accounts for roughly 70% of the world's water usage."
- D. "Sprinkler irrigation systems, which were developed in the late 20th century, are a convenient technique of irrigating that makes use of machinery in order to spray water in all directions. Many areas of the Southwestern United States are currently irrigated by this method. gene Rose BSeeRHEN ae RAGSRNARUA EH, hom SHH Properties of TRAPPIST-1 Exoplanets Compared to Earth's Properties [--Planet [orbit period (day) [lane radius Earth radii [Font [- - _36526 1 [[rRaPnistib] 131 109 [[rarnistia] 405 077 [[tRaPeistic] 64 092 [[rrareistir] 921 104 | 'TRAPPIST-1 is a planetary system with a central red dwarf star and several Earth-sized exoplanets. Each planet in this system is so close in orbit to the star that the gravitational forces acting between the planet and the star cause the planet's rotational period around its axis and orbital period around the star to be equal. For example, the orbital period of TRAPPIST-1e is, Which choice most effectively uses data from the table to complete the example? 'A. 6.1 days, and its rotational period is 0.92 days. Question 12

Source PDF page: 27

The Clouds is a 423 BCE play by Aristophanes, originally written in ancient Greek. At the time, professional intellectuals called sophists taught customers rhetorical techniques to use in public speaking, along with providing instruction in other subjects. In the play, Aristophanes satirizes sophists as having an exaggerated sense of their own wisdom, as seen when the character Which choice most effectively uses a quotation from a translation of The Clouds to illustrate the claim? A. Socrates, a sophist, says to a customer, "You talk nonsense. Begone; I can't teach you any longer." B. Strepsiades says of a sophist business, "There dwell men who in speaking of the heavens persuade people that it is an oven, and that it encompasses us, and that we are the embers. These men teach, if one give them money, to conquer in speaking, wrong." C. Strepsiades encourages

his son to learn to be a sophist, saying, "Go, I entreat you, ight or dearest of men, go and be taught." D. Socrates, a sophist, says to a new customer, "Come, then, take care that, whenever Tpropound any clever dogma about abstruse matters, you [seize] immediately." gene Rose BSeeRHEN ae RAGSRNARUAEH, hom SHH Highest Major Summits in India Summit Elevation (meters) [Mountain range | Prominence (meters) Rimo L 7385 Rimo Karakoram 138 'Nanda Devi 7.816 Himalayas 3,39 Panchchuli I 6,904 Garhwa | Himalaya 1614 Saser Kangri IK22 76 Saser Karakoram 2,304 Langpo 6,965 Sikkim Himalaya 560 'Mountain summits are often described in terms of their elevation, or height above sea level. But a summit's elevation may not be as good an indication of how high the 'mountain appears to observers as isthe summit's prominence, or its height above its surroundings, and these values can differ significantly. For example, the Indian mountain of Which choice most effectively uses data from the table to complete the example? 'A. Saser Kangri I/ K22 has an elevation of 7,672 meters and is considered the highest 'mountain from the Saser Karakoram range. B. Nanda Devi has a much higher prominence than does Langpo. . Nanda Devi has a high prominence but is from a different mountain range than Rimo I, which has @ lower prominence, . Nanda Devi has an elevation of 7,816 meters but a considerably lower prominence 03,139 meters, gang saaseensesmnam 17) RAGSRNARUAEH, hom SHH Omar Asensio and colleagues used machine-learn algorithms to examine consumer reviews of 12, 720 electric-vehicle (EV) charging stations in the US. They found that privately owned or managed charging stations at or near restaurants and convenience stores had relatively low proportions of negative reviews, while stations at or near ear rental companies had significantly higher proportions of negative reviews, 'Additionally, stations at or near ear rental companies tend to require consumers to pay Ful price to use them, while stations elsewhere often offer subsidized or even 'complimentary charging. Assuming that stations at different sites provide roughly equivalent levels of service, these results suggest that 'Which choice most logically completes the text? A. EV owners are usually unaware ofthe fees for using charging stations. B. EV drivers are more likely to visit arcas with many restaurants and convenience stores than they are to visit areas with fewer such businesses . charging stations located near ear rental companies are more frequently visited than charging stations located near restaurants and convenience stores. D. users who are offered a discount have lower expectations of the quality of charging stations than users who are not offered a discount do. gene Rose BSeeRHEN ae RAGSRNARUAEH, hom SHH Many contemporary Indigenous painters practice a specifically Indigenous mode of abstraction; for example, Starr Hardridge often assembles compositions out of motifs 'common in the traditional beadwork and graphie art of his tribe. In contrast, the prominent Indigenous practitioners of abstract painting during the mid-twentieth century, such as the Southern Cheyenne artist Dick West, typically aligned their 'compositional strategies with Abstract Expressionism - a school of painting dominated by European American artists - instead of with traditionally nonrepresentational forms of Indigenous art. Thus, in the case of West's generation, the identification of an abstract painting as Indigenous art tends < 0 'Which choice most logically completes the text? 'A. deny the extent to which cultural identity influences an arts't's work. BB, depend not on stylistic details but instead on an awareness of the artist's identity, . obscure the Indigenous origins of certain motifs associated with Abstract Expressionism, . place a greater emphasis on the artist's biography than on the aesthetic merit of the painting gene Rose BSeeRHEN ae RAGSRNARUAEH, hom SHH 'Whereas Joan Lockard's 1984 study of captive gorillas reported more right-handedness than left-handedness, Jane Goodall's1963 study of wild chimpanzees did not. According to a meta-analysis of studies of nonhuman primates, captive populations are more likely to be described as right-handed than wild populations arc, Statistical analysis indicates a handedness study would need a minimum of 176 individuals to show a representative result; however, the study by Lockard included a total population of 8, and the study by Goodall included a total population of 8. This suggests that 'Which choice most logically completes the text? 'A. the study by Lockard reliably represents handedness in captive primates but not in wild primates. B. Goodall likely underestimated the prevalence of right-handedness among the wild chimpanzees in the study. . neither the study by Lockard nor the study by Goodall provides sufficient evidence to make a meaningful comparison about handedness in primates D. the study by Lockard reliably eepresents handedness in captive primates, but the study by Goodull likely does not reliably represent handedness in wild primates In rural Minnesota, ecologist Leroy Walston conducted a study to determine whether seeding solar panel fields with wildflowers could bolster pollinatar populations in nearby food crops. Walston's findings indicate that - assuming solar panel installers" practice has the potential to increase the number of native bees in craps near solar fields throughout the Midwest by up to 20 percent. 'Which choice completes the text so that it conforms to the conventions of Standard English? A. cooperation this B. cooperation: this . eooperation - this D. cooperation. this gene Rose BSeeRHEN ae George Saunders concludes his essay "What Writers Really Do When They Write" by comparing the work of fiction writing to the act of juggling. The author-as-juggler performs a gathering of central themes and tensions, the tossing of these elements into a dynamic narrative, and the catching of the resolutions that emerge. 'Which choice completes the text so that it conforms to the conventions of Standard English? 'A. routine; the B. routi routine, The D. routine: the 1, the
